Introduction

Our program, Cleaner Streets, Cleaner Lives aims to educate communities, to promote health, safety, and fulfilling experiences for people who use drugs and their communities between the ages of 18-40 in a world free of systemic oppression and drug prohibition, where all people have the cognitive liberty, bodily autonomy, and resources to thrive. We plan on Implementing community outreach programs by using healthcare workers as well as volunteers willing to help educate those in need to achieve our goal of less drug use out in the metro community. The importance of a stage-based approach is to reach our goals, to receive feedback, and complete all necessary steps to prepare for our mission.

Implementation Plan

Exploration Phase					
Implementation Goal	Implementation Strategies	Resources Needed	Anticipated Challenges	Anticipated Result	Fidelity Measure
To have enough healthcare workers to cover our group	<p>Build a coalition</p> <p>https://smokeworks.org/pages/map</p> <p>(Free supplies for low-income groups) Smoke Works' Material Aid Program covers needs when budgets won't. Requests for harm reduction supplies from our catalog can be made by active account holders. We understand that large or small, budgets never meet demand. All active accountholders are welcome to submit requests for supplies.</p>	willing healthcare workers/ volunteers	Healthcare workers already work long hours	Medical staff on standby	Pre/ Post Test
Educating users on strategies to cope and stay clean.	<p>Model or stimulate change</p> <p>We act as a nonjudgmental first point of contact when</p>	<p>Educational material</p> <p>https://www.drugpolicyfacts.org/</p>	participation	Proper education distributed through	Pre/ Post Test

<p>https://www.bvlup.com/</p> <p>A website dedicated to safer use, overdose prevention, and harm reduction tips made by people who use drugs. Designed for social service programs (syringe exchanges, health departments, etc.) but usable by anyone.</p>	<p>talking about risky or challenging situations. We support every individual's ability to make informed, consensual decisions about their body and mind. We're not an abstinence-based organization, although we fully support abstinence as a positive choice for many people. We believe in both risk reduction and benefit maximization.</p>	<p>or see resources slides</p>	<p>outreach services include distribution of free condoms, earplugs, water, fact-based drug information, and consent education materials. With event producers' consent, we provide free on-site drug checking services.</p>	<p>out the community work is inherently political, with intersections in the prison industrial complex, racial justice, healthcare, poverty, LGBTQ IA2S+ rights, and more. Put simply: <i>If our political systems weren't violating basic human rights, we wouldn't exist.</i></p>	
<p>To have engaged and prepared users</p>	<p>Asses for readiness and identify barriers and facilitators</p>	<p>-willing substance users To have engaged</p>	<p>-some may be in the contem</p>	<p>Getting users to the action</p>	<p>Pre/ Post Test</p>

<p>https://www.crackdownpod.com/</p> <p>Podcast covering the drug war, hosted by people who use drugs.</p>	<p>https://www.psychologytoday.com/us/blog/from-striving-to-thriving/202208/how-to-receive-feedback-more-effectively</p> <p>A 5-step guide to receiving feedback from others.</p>	<p>and prepared users</p> <p>https://www.crackdownpod.com/</p> <p>Podcast covering the drug war, hosted by people who use drugs.</p>	<p>plation phase</p> <p>We're all about transparency, and we try to be as forthcoming as possible about who we are, what we do, and what our limitations are.</p>	<p>(stages of change model)</p>

Installation Phase					
Implementation Goal	Implementation Strategies	Resources Needed	Anticipated Challenges	Anticipated Result	Fidelity Measure
<p>To have the support from the local first responders</p> <p>We're known for offering drug</p>	<p>Develop resources sharing agreements</p> <p>https://thedrugclassroom.com/</p>	<p>Approval of grants/ Funding</p> <p>https://opencollective.com/</p> <p>"Open Collective is a legal and</p>	<p>Law enforcement approval</p> <p>https://dontcallthepolice.com/</p> <p>A database of police alternatives sorted by state and city with local LEO authority</p>	<p>Support from local first responders to make mission successful</p> <p>https://georgiaoverdoseprevention.org/</p>	<p>Pre/Post Test</p>

<p>checking services at raves and nightlife events across the U.S., along with non-judgmental information about drugs, sex, consent, and more. started the only publicly accessible drug checking laboratory in North America in 1998</p>		<p>financial toolbox for grassroots groups. It's a fundraising + legal status + money management platform for your community. Whether you're a mutual aid group, a community initiative, an open-source software project, or a climate change activist, Open Collective helps groups unlock access to money."</p>		<p>Georgia Overdose Prevention's mission is to educate Georgians about the new laws governing drug overdose incidents and to distribute opioid overdose rescue kits to anyone who knows a person at risk for opioid/opiate overdose. We created and were instrumental in the passage of Georgia's 911 Medical Amnesty and Naloxone Access Law in 2014.</p>	
<p>To have funding in the form of grants, donations, or fundraising https://opencollective.com/ "Open Collective is</p>	<p>Fund a contract for the clinical innovation https://www.spiritpharmacist.com/ is A paid consultancy/training program around psychedelics,</p>	<p>Stakeholder funding and approval of our plan https://drugpolicy.org/ One of the most respected drug policy organizations in the world. An</p>	<p>Funding and donations</p>	<p>Enough funds granted to our program</p>	<p>Pre/Post Test</p>

<p>a legal and financial toolbox for grassroots groups. It's a fundraising + legal status + money management platform for your community. Whether you're a mutual aid group, a community initiative, an open-source software project, or a climate change activist, Open Collective helps groups unlock access to money."</p>	<p>psychopharmacology, and affiliated topics</p>	<p>essential resource with many trainings and resources on all sorts of intersectional topics.</p>			
<p>To have an abundance of resources</p> <p>https://odh.ohio.gov/know-our-programs/project-dawn/project-dawn-programs/project+dawn+locations</p> <p>"Project DAWN (Deaths Avoided With</p>	<p>Distribute educational materials</p> <p>https://www.williamgnash.org/ The William G. Nash Foundation will work to facilitate honest discussion and close gaps in college campus safety by engaging in the following key</p>	<p>Test kits</p> <p>https://dancesafe.org/whole-sale-registration-page/</p> <p>Wholesale status is reserved for businesses and institutions.</p>	<p>Lack of Volunteers</p> <p>https://dancesafe.thinkific.com/courses/dancesafe-training-course</p> <p>Volunteers are the beating heart of our work. To get started, take the DanceSafe Training Course and pass the test at the end. You'll then be connected with the closest local chapter</p>	<p>More than Enough kits and equipment</p>	<p>Pre /Post Test</p>

<p>Naloxone) is a network of opioid overdose education and naloxone distribution programs (OENDP) coordinated by the Ohio Department of Health. As of October 2023, there are 182 Project DAWN programs registered in Ohio. Project DAWN programs distribute naloxone and provide training at one or various Project DAWN sites, or locations, to prevent opioid overdose and promote harm reduction. Many Project DAWN programs operate multiple sites, usually with partnering agencies. Program partnerships and settings include:"</p>	<p>activities: - Grantmaking to organizations and student groups working to reduce harm and introduce restorative justice on the college campus. - Partnering with like-minded organizations to raise awareness and create programming when needed to meet a goal. - Contribute to public discourse on harm reduction and psychedelic use in uncontrolled campus settings through legislative advocacy, media campaigns, opinion editorials, grey literature and peer-reviewed publications. - Work to advocate for reality-based substance use education and culture/policy change at institutions of higher learning and high schools across the country.</p>	<p>Pricing tiers for fentanyl test strips: Our reseller pricing tier for FTS ranges from \$0.85 – \$0.49 per strip depending on volume Our nonprofit pricing tier for FTS ranges from \$0.65 – \$0.45 per strip depending on volume Our nonprofit pricing tier is for any organization, no matter how large or small, giving fentanyl test strips away for free. Typical examples of wholesale customers include SSPs, social service agencies, state health departments, etc.</p>	<p>and given access to volunteer resources.</p>

					Pre/Post Test

Full Implementation Phase					
Implementation Goal	Implementation Strategies	Resources Needed	Anticipated Challenges	Anticipated Result	Fidelity Measure
Educate communities	Educational workshops and classrooms	Educators versed in substance use	Getting communities to attend	The challenges and facts of substance use will be shared with affected communities	Pre/Post Test
Less drug uses out in the metro community	Reduce access to drugs through legislative regulation	Lobbyists and legislative support	Enacting legislative change in a timely manner to work with educational resources	Reduced access to drugs will reduce negative drug outcomes in communities	Pre/Post Test

Provide easy access to treatment	Increase the number and accessibility of substance use treatment centers	Medical personnel skilled with substance use treatment and facilities for them to practice	Convincing those struggling with substance use to seek treatment	Lower rates of substance use and negative consequences that result from substance use	Pre/Post Test

Conclusion

The key strategies we considered for Cleaner Streets, Cleaner Lives include heavy community involvement. Our plan is designed to help educate communities about substance use through law enforcement and first responders training, distribution and development of substance use resources like testing kits and instructional materials, and the creation of multiple sources of community funding for our program. Ethically we considered the quality of the resources and staff required to move our plan forwards. We discussed the importance of the caliber of training and education required to properly teach the individuals who will be responsible for the implementation of Cleaner Streets, Cleaner Lives.
